Asnet

MAREN

Malawi Research  
And Education Network

## TWINING PROGRAMME

- collaboration between emerging and advanced NRENs
- one partner from an emerging NREN
- one from the GÉANT community
- run for six months

## COLLABORATION AREAS

- High-performance and cloud computing
- Cybersecurity and CERT
- Big Data analytics
- Open education management systems
- Promotion and marketing of NREN services

Asnet

## Results

- Workshop on enhancing capacity in HPC, cloud computing, and Big Data analytics
- A service for leveraging Copernicus Earth Observation data in Malawi
- Training on the implementation of effective marketing strategies
- Knowledge sharing on network security and management

## Lessons learned

- The power of collaboration
- Capacity building and knowledge exchange
- Strengthened relationships

## Recommendations

- Extend program duration
- Allocate adequate budget
- Improve communication and project management
- Implement evaluation processes

# Thank you
